January, 2015

This University of Minnesota Fiscal Year Lease Report documents the University's real estate leasing activity during Fiscal Year 2014 (July 1, 2013 – June 30, 2014). Approximately 4,668 leases and easements involving the University as landlord or tenant, including the PUF leases, were in existence during the fiscal year and are included in this report.

During Fiscal Year 2014, 352 long-term leases, which provided for the University's use of 837,729 square feet of building space plus numerous apartments which are not measured, 814 short-term leases, and 2,719 acres of land, air-rights and subsurface rights at a total cost of approximately \$20.1 million. This compares to 325 long-term leases and 726 short-term leases in existence during Fiscal Year 2013 covering 890,157 square feet and 2,631 acres at an approximate total cost of \$20.5 million.

The University's total leased building space in Fiscal Year 2014 decreased by 52,428 square feet. This reduction reflects a decrease in square footage of the space leased for the CSE/Nova Project at 2070 Elm Street, Minneapolis (L-1417). The number of acres leased increased by 88 acres. The total rental costs paid by the University for both building space and land leases decreased by approximately \$416,097.

A major new lease that commenced in Fiscal Year 2014 was a long term lease of approximately 17,000 square feet for the Academic Health Center's Advanced Research and Diagnostic Laboratory at 1200 Washington Avenue S, Minneapolis (L-1465). The space consists of office, research laboratory and freezer farm space that will be able to accommodate future growth and house approximately 160 at full capacity.

The number of leases (long and short term) and easements involving the use of University real estate by others during Fiscal Year 2014 totaled 3,502. This compares to 3,482 in Fiscal Year 2013.

Funds 1000, 1026 and 1020-1150, except 1030, (General Operations and Maintenance, Miscellaneous, Other-Unrestricted), provided approximately \$15.5 million, or 84%, of the University's \$18.3 million total cost for long-term rental facilities during Fiscal Year 2014. Funds 3000-3014 (Sponsored Research-Restricted) provided \$900,000 for leased real estate during Fiscal Year 2014, or 5%. Other-Restricted funds provided \$1.74 million or 10%, of the total expended for the University's use of real estate owned by others during the past fiscal year.

This Fiscal Year 2014 lease report reflects the number of square feet leased as of June 30, 2014, or as of the termination date if the lease terminated during the fiscal year prior to June 30, 2014. The rents reported in this document reflect rents paid (leases and other agreements involving the University as tenant) and rents received (leases and other agreements involving the University as landlord) attributable to Fiscal Year 2014. Occupants identified are those housed in the leased premises at the end of the fiscal year (or at the end of the lease if the lease terminated during the fiscal year). Occupants of certain leased facilities may have changed since June 30, 2014. Several internal leases including the use of space at Coffman Memorial Union and Boynton Health Services managed through the Real Estate Office are included in this report. This year's report also includes a separate sublease section, which lists subleases within University leased space.

Questions and comments concerning this document are welcome and should be directed to me at 612/626-9402.

Sincerely,

Jon Dostal
University Real Estate Leasing Manager

cc: Susan Carlson Weinberg, CRE, Director of Real Estate
